## Quality Improvement and Accreditation System Quality Trends Report

For the period 1 January 2009 to 30 June 2009

The purpose of this *Quality Trends Report* is to identify key areas within the Quality Improvement and Accreditation System (QIAS) that long day care centres are performing well in and those which contribute to centres receiving a Not Accredited status.

The Quality Areas and Principles are detailed in the *QIAS Quality Practices Guide* (1<sup>st</sup> edition, 2005) available for purchase from the National Childcare Accreditation Council (NCAC) website ([www.ncac.gov.au](http://www.ncac.gov.au)). Where references are made to numbered indicators, these are listed in the *QIAS Validation Report* (3<sup>rd</sup> edition, 2005).

*Quality Trends Reports* are published biannually in January and July for each of the Child Care Quality Assurance systems. *Quality Trends Reports* against the *QIAS Quality Practices Guide* are publicly available on the NCAC website for the following reporting periods:

- 1 July 2006 – 31 December 2006
- 1 January 2007 – 30 June 2007
- 1 July 2007 – 31 December 2007
- 1 January 2008 – 30 June 2008
- 1 July 2008 – 31 December 2008

## QIAS Quality Trends Report

---

As at 1 July 2009, 5,735 long day care centres were registered with NCAC to participate in the QIAS and 93% of centres that have completed the 5 steps of Child Care Quality Assurance are Accredited. Of these, 98% have achieved High Quality in all 7 Quality Areas. This is a significant achievement and indicates that a significant percentage of long day care centres are performing at a high standard.

1,539 long day care centres received Accreditation Decisions between 1 January 2009 and 30 June 2009. Of these, 1,365 were Accredited (89%), while 174 were Not Accredited (11%).

## Quality Area 1: Staff Relationships with Children and Peers

---

The development of the whole child is closely linked to the quality of the relationships experienced with others. Consistently respectful and sensitive communication and interactions between staff and children help to secure and promote children's social and emotional wellbeing, which in turn supports the development of other skills and abilities. (Extract from *QIAS Quality Practices Guide*, 2005, page 7).

### Quality Trends:

Most long day care centres achieved High Quality in this Quality Area. However, more than 10% of centres did not meet the Satisfactory standard for Principle 1.5.

Principle 1.6	High Quality	Good Quality	Satisfactory	Unsatisfactory
%	90	9	0	1

## Quality Area 2: Partnerships with Families

---

Staff and families share the common goal of positive outcomes for children. Partnerships between staff and families are characterised by active communication and consultation that is fostered by staff and management. Each partnership is unique and will be dependent upon the specific needs, interests and communication styles of the participants.

The relationship between the child's family and staff is crucial to the child's wellbeing, development and progress. Children benefit most when this is a trusting and mutually supportive partnership. (Extract from *QIAS Quality Practices Guide*, 2005, page 21).

### Quality Trends:

Most long day care centres achieved Good to High Quality in this Quality Area.

---

### Quality Area 2 has three Principles:

**Principle 2.3:** The centre has an orientation process for children and families

Principle 2.3	High Quality	Good Quality	Satisfactory	Unsatisfactory
%	93	6	0	1

## Quality Area 3: Programming and Evaluation

The centre's philosophy provides an important framework within which programming decisions are made. Effective programming also takes into account feedback and observations from all the centre's stakeholders, most importantly, from the children themselves.

The program comprises all aspects of children's experiences at the centre. It needs to be flexible and adaptable, at short notice, to meet individual and group interests, talents and abilities. The program should be stimulating and involving, with a variety of opportunities available for children to pursue their current interests and develop new ones. (Extract from *QIAS Quality Practices Guide*, 2005, page 29).

### Quality Trends:

Most long day care centres achieved Good to High Quality in this Quality Area. However, more than 10% of centres did not meet the Satisfactory standard for Principle 3.2 and 3.3.

### Quality Area 3 has three Principles:

**Indicator 3.3.8** *Written programming for all groups and for individuals is continuous, ongoing and influenced by program evaluation*

## Quality Area 4: Children's Experiences and Learning

---

Children are fascinated with the physical world and they want to explore it, make sense of it and have some control over it. Time to play, explore ideas, interact with others and make connections with the environment is an important element of early childhood programs. As children explore and experiment with language, relationships, ideas, equipment and materials they learn about themselves and the world. Such a program requires the active participation of staff and management in providing a rich environment whereby children have choices and a role in decision making. (Extract from *QIAS Quality Practices Guide*, 2005, page 37).

Principle 4.6	High Quality	Good Quality	Satisfactory	Unsatisfactory
%	78	21	0	1

## Quality Area 5: Protective Care and Safety

---

Management and staff share a responsibility to keep up to date with the current research and practices recommended by recognised health and safety authorities. Also, centres are subject to workplace health and safety legislation that has implications for children, staff and anyone else who enters the premises.

Clear policies and procedures relating to child protection and child safety are in the best interest of children, management, staff and families. Staff also require continuing professional development on child protection and child safety. It is important that staff know where to access current information from recognised authorities on child safety practices. (Extract from *QIAS Quality Practices Guide*, 2005, page 51).

## Quality Area 6: Health, Nutrition and Wellbeing

---

Management and staff share a responsibility to keep up to date with current health research and with practices recommended by recognised health and nutrition authorities. Staff need to be sensitive and responsive to each child's daily nutritional needs and eating patterns, food preferences and cultural, religious or special dietary requirements. This should be complemented by a focus on the child's emotional wellbeing and on providing developmentally appropriate support for each child's growing confidence and independence.

Staff should engage in ongoing professional development and access current information from recognised authorities on children's daily nutritional requirements, on food handling and on hygiene practices. (Extract from *QIAS Quality Practices Guide*, 2005, page 63).

## Quality Area 7: Managing to Support Quality

---

It is the role of centre management and staff to establish effective and ethical management policies and procedures. Centre policies and procedures must be informed by relevant legislative requirements, current 'best practice' in management and also reflect an awareness of community needs and issues.

Comprehensive written policies and procedures provide clear guidance to staff and families in relation to management issues. Involvement of key stakeholders including families, staff, management and children in policy review and development fosters an atmosphere of trust and teamwork.

An essential element of quality centre management is ensuring that clear and consistent procedures for the maintenance and confidential management of family, child and staff records are implemented. Decision making, grievance and complaints handling policies and procedures are transparent and clearly define accountability. (Extract from *QIAS Quality Practices Guide*, 2005, page 77).

### Quality Trends:

## Comparative Quality Trends Analysis

The National Childcare Accreditation Council (NCAC) has conducted five *QIAS Quality Trends Reports* against the standards outlined in the *QIAS Quality Practices Guide* (1<sup>st</sup> edition, 2005) for the following reporting periods:

- 1 July 2006 – 31 December 2006

These *Reports* demonstrate a number of quality trends in the performance of long day care centres against the standards of quality care.

### **Notable trends in the data include:**

This *Quality Trends Report* demonstrates a high level of achievement among most long day care centres. 98% of Accredited services have now achieved High Quality ratings across all 7 Quality Areas.

For this reporting period, 160 services that were previously Not Accredited became Accredited. 38 services were Not Accredited for the second consecutive occasion. 4 services were Not Accredited for the third consecutive occasion or more.

As compared to the previous reporting period:

- High Quality ratings rose across all 33 Principles by an average of 5 percentage points.
- There was a corresponding fall in Good Quality ratings across 31 Principles by an average of 4 percentage points.
- Satisfactory ratings remained stable across 24 of the 33 Principles.
- Unsatisfactory ratings fell across 28 Principles by an average of 3% percentage points.

- A significant proportion of centres received Unsatisfactory ratings in relation to documentation of children's learning and development and programming:

Principle	Area	Unsatisfactory
3.2	Documentation	14%
3.3	Programming	11%

- Across several Quality Areas, a significant proportion of centres received Unsatisfactory ratings in relation to the development, implementation, dating and sourcing of written policies and procedures in the following areas:

Principle	Policy and Procedure	Unsatisfactory
1.5	Inclusion and reducing bias	11%
5.3	Use and storage of dangerous products	26%
5.4	Maintenance of safe buildings and equipment	19%

6.6	Immunisation and infectious diseases	16%

- There were several indicators for which centres received 10% or more Unsatisfactory ratings:

Indicator	Unsatisfactory
1.5.2 <i>These policies and procedures [for inclusion and reducing bias] have been developed and discussed with families and the consultation dates are recorded</i>	11%
3.2.3 <i>Information from families and staff is recorded regularly in individual children's documentation</i>	10%
3.3.8 <i>Written programming for all groups and for individuals is continuous, ongoing and influenced by program evaluation</i>	11%
6.4.5 <i>Toileting and nappy changing procedures are displayed in toilet and nappy changing areas</i>	12%
6.4.6 <i>The centre's procedures for toileting and nappy changing are implemented consistently</i>	14%

- More than 15% of services have received Unsatisfactory ratings for the following Principles for the past five reporting periods:

- NCAC has developed a variety of resources to support services to improve their practice in these areas:

## NCAC Support for Services

The purpose of this *Quality Trends Report* is to identify key areas within the QIAS that long day care centres are performing well in and those which contribute to centres receiving a Not Accredited status.

NCAC aims to work in partnership with long day care centres to facilitate and support continuous improvement to the quality of child care provided for children in Australia. The *Quality Trends Report* assists NCAC to provide targeted support to centres as they progress through the QIAS.

NCAC has implemented several initiatives, addressing concerns raised in the *Quality Trends Reports* as follows:

- The NCAC *Policy Development Guide* is available on the NCAC website to assist services to research, develop and review policies in collaboration with stakeholders. Services may find the *Developing a Policy Checklist* helpful when planning for and reviewing policies.

The Policy Templates, available as part of the *Policy Development Guide*, are designed to assist services to develop and implement policies that are relevant and appropriate to the service and that meet QIAS requirements.

- NCAC's magazine, *Putting Children First*, is distributed quarterly to all services participating in the Child Care Quality Assurance systems. Recent articles supporting quality practices include:
  - Supporting children's development: Gross motor skills (June 2009)
  - Ask a Child Care Adviser: Policies and procedures in everyday practice (June 2009)
  - Including Aboriginal Australia in your service (June 2009)
  - Managing bullying in child care (June 2009)
  - Developing a culture of learning through reflective practice (June 2009)
  - Helping families work through the challenges they may experience using child care (June 2009)
  - Using television in child care (June 2009)
  - Working with gifted children (June 2009)
  - Supporting children's development: Making choices in play (March 2009)
  - Ask a Child Care Adviser: Preparing for the Validation Visit (March 2009)
  - Ethics: a part of everyday practice in child care (March 2009)
  - Going 'green' in child care services (March 2009)
  - Digital technology and computers in child care (March 2009)
  - Fostering children's relationships (March 2009)
- NCAC refers services to the *Quality Trends Reports* through publications such as *Putting Children First*. Services can use the information provided by the *Quality Trends Reports* to assist their progress, particularly during Step 2: Self-study and Continuing Improvement. It may be necessary for services to spend some time working towards reaching the Satisfactory standard required by those Principles and indicators for which services have most often not met the Satisfactory standards.

NCAC will continue to use the information provided in the *Quality Trends Reports* to develop ways to effectively support long day care centres participating in the QIAS.
